

Flushing made easy: TOOL BOX W04

When replacing the heat exchanger, water pump or charge air cooler, you should always make sure you flush the cooling circuit afterwards. In fact, for some engines, it's a stipulated requirement. The TOOL BOX W04 provides a compact, universal solution here. It allows mechanics to easily carry out the complete flushing procedure, even when dealing with very intricate cooling systems. All connector systems and adapters have been designed so that they each fit just one mating part, thereby eliminating the possibility of connection errors.

Contents

- > Complete flushing and vacuum unit
- > Battery and hose clamps
- > All the necessary hoses and couplings
- > Venturi nozzle
- > Screw caps for containers
- > Clearly explained instructions

Benefits

- > Simple, safe flushing in accordance with the manufacturer's specifications, even for very intricate cooling systems
- > Perfect match for the adapters and connectors contained in TOOL BOX W01
- > Smart solution in two handy cases
- > Universally suitable for all vehicles
- > 'Made in Germany' seal of quality
- > 5-year guarantee:

Parts list/area of application for TOOL BOX W04

Item	Description
1	Channel 1 (on block 17)
2	Channel 2 (on block 17)
3	Coupling for suction hose (pump)
4	Connector for suction hose
5	Connector for pressure hose (pump)
6	Coupling for pressure hose
7	Suction hose for container
8	Drain hose for container
9	Valve block with manometer and stopcocks A + B
10	Venturi nozzle
11	Drain hose (for releasing pressure at valve block)
12	Flush hose with variable adapter Ø 8/10/12/15 mm and hose clip
13	Fastening hose Ø 8/10 mm, with hose clip
14	Fastening hose Ø 12/15 mm, with hose clip

Item	Description
15	Cleaning adapter
16	Suction adapter
17	Inspection glass (for checking the filling process)
18	Pump EAP 11_12VDC_Continental
19	On/off switch (pump)
20	Battery clamps for 12V DC (power supply to pump)
21	Screw cap DIN 61 for "new fluid" container
21.1	30 l container* with DIN 61 closure (for new fluid)
22	Screw cap DIN 61 for "used fluid" container
22.1	30 l container* with DIN 61 closure (for used fluid)
23	Hose clamps (four)
24 + 25	Storage cases
A + B	Stopcocks on valve block

Vehicle applications where flushing is stipulated by the vehicle manufacturer:
